01 / OPEN AGENT BUILDER

Add a skill to Microsoft 365 Copilot

Upload a MED-AI skill ZIP, test it, and open your agent again.

1 Get your skill ZIP ready

If you downloaded only **SKILL.md**, compress the file into a ZIP. Open the ZIP and check that **SKILL.md** is visible as soon as you open it.

EXAMPLE ZIP CONTENTS

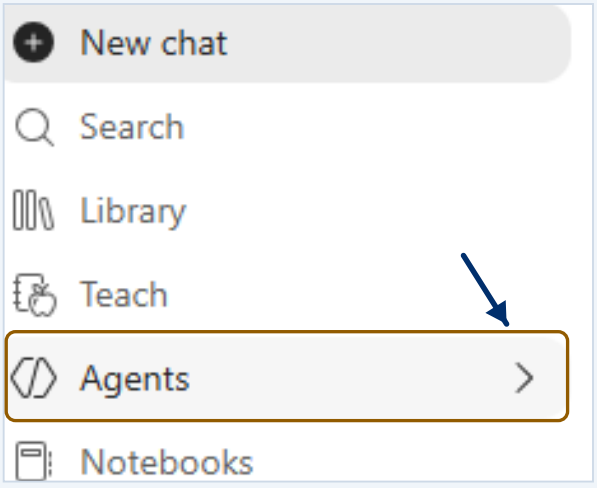

```
nyit-irb-prep.zip
└ SKILL.md
```

Keep any required companion files with the skill. The **SKILL.md** file must include its name and description in the header.

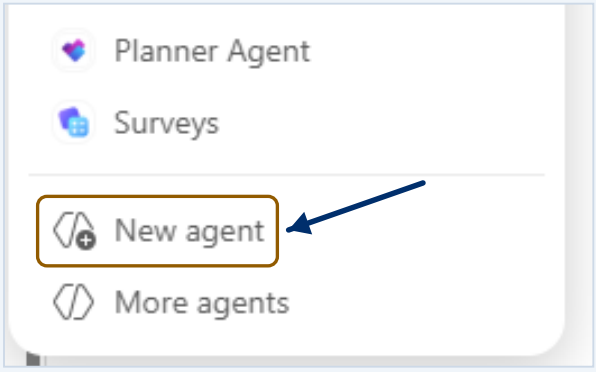

2 Start a new agent

Sign in to **Microsoft 365 Copilot** with your NYIT work account. In the left sidebar, select **Agents** (also called **Agents & Skills**), then **New agent**.

OPEN THE AGENTS MENU

SELECT NEW AGENT

Already have an agent?

Open it for editing and select **Configure**. Continue on page 2.

Reference Microsoft Learn · Add skills in Agent Builder

02 / UPLOAD THE ZIP

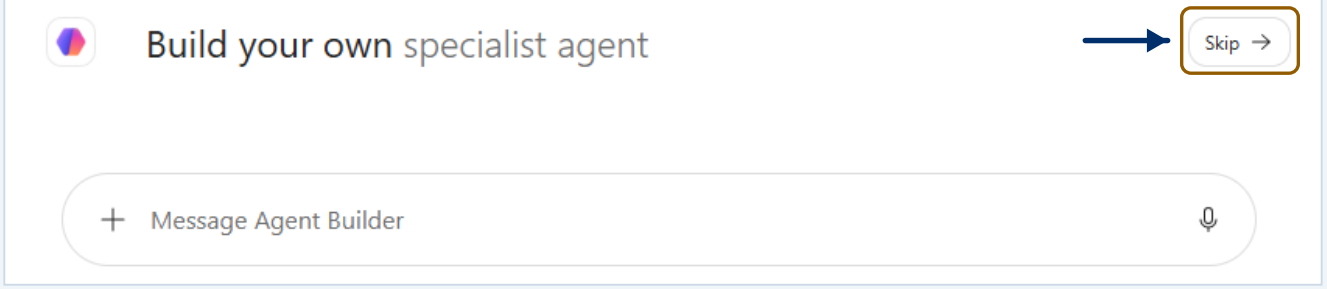

Upload the skill ZIP

Add the package in the agent’s Skills section.

3 Open Configure

On the **Build your own specialist agent** screen, select **Skip** (or **Skip to configure**) to open the configuration tab.

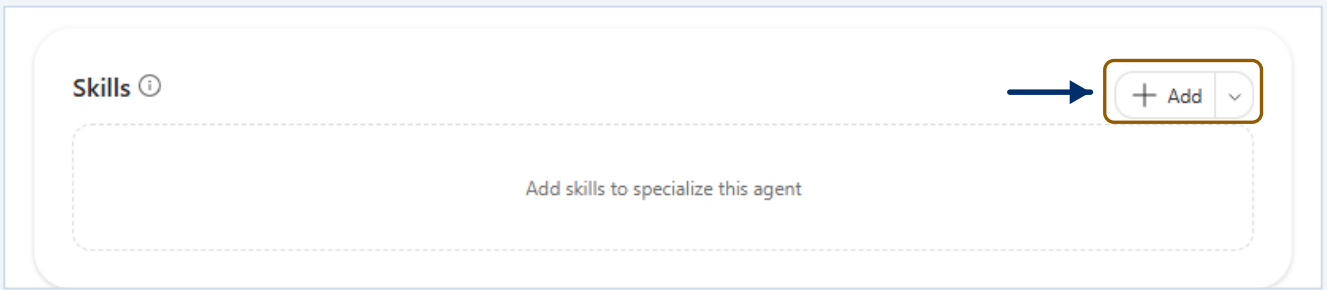

AGENT BUILDER WELCOME SCREEN

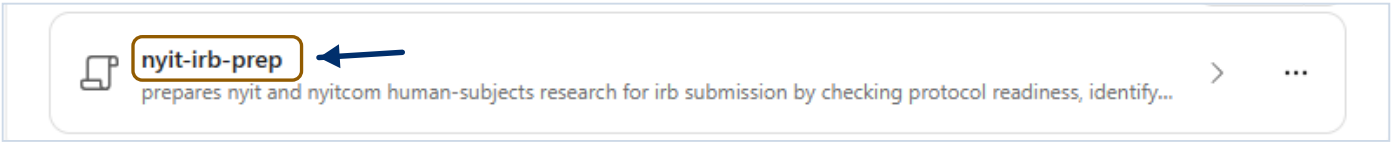

4 Add the ZIP under Skills

In **Configure**, scroll to **Skills** and select **Add**. Choose the ZIP in the upload dialog. The skill’s name should appear in the list.

BEFORE UPLOAD

AFTER UPLOAD / nyit-irb-prep

Missing Skills or Add? Ask NYIT IT to check your Copilot access and organization settings.

03 / CONFIGURE AND TEST

Set up and test the agent

Use the NYIT IRB Prep example or adapt the wording for your own skill.

5 Give the agent a name and instructions

Use the pencil to rename **New Agent**, fill in **Describe your agent**, and add a short instruction that tells Copilot when to use the uploaded skill.

AGENT BUILDER CONTROLS

COPY-READY EXAMPLE

A **Name** NYIT IRB Prep

Description Helps NYIT and NYITCOM researchers check IRB readiness and draft Cayuse application responses.

B **Instructions** Use the **nyit-irb-prep** skill for NYIT or NYITCOM IRB preparation. Ask for missing study details before drafting. Flag approvals that need confirmation and mark Cayuse responses as drafts for researcher review.

6 Preview, then create

Open **Preview** (C), also called **Try it**, and use the sample prompt below. If the agent asks for missing details, select **Create** (D) or **Update** for an existing agent.

Fictional test prompt

I'm planning an anonymous survey of NYITCOM medical students about sleep habits. What information do you need before drafting my Cayuse application?

04 / FIND AND USE THE AGENT

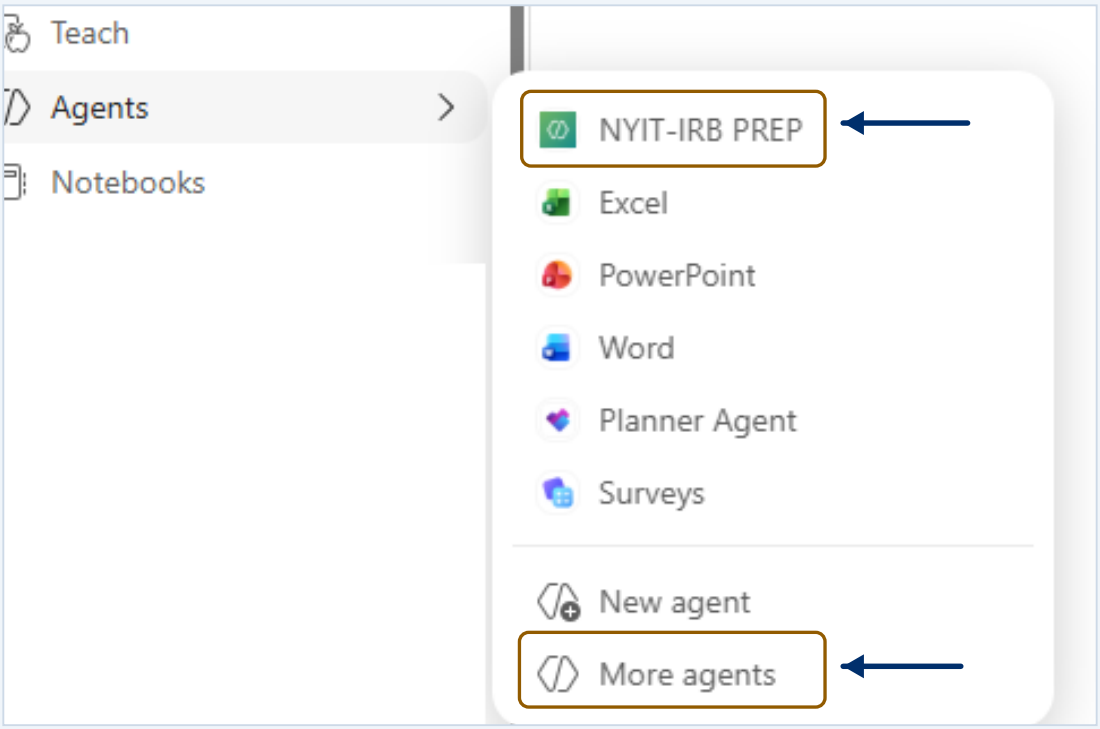

Open your agent again

Start a chat with the agent that contains your uploaded skill.

7 Find the agent in Copilot

Return to **Microsoft 365 Copilot** with the same work account. Open **Agents** and choose **NYIT IRB Prep** or the name you gave your agent.

SELECT THE AGENT YOU CREATED

If the agent is missing from the sidebar

Choose **More agents** (or **All agents**). In the Agent Store, look under **Your agents**, select **See more** if needed, then choose your agent and select **Open**.

Start with a request for your skill

In the agent's chat, try "Help me check whether my study is ready for NYITCOM IRB submission."
